

BYPASS TAP-HOLE CONVERSION KIT A0103

The Bypass Tap-Hole Conversion Kit is designed to allow mixer taps with smaller base diameters to be installed correctly and securely to laundry tubs where the tap hole in the tub may be too large for proper fitment.

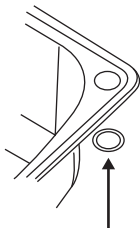

1. Determine which side on the laundry tub (left hand or right side) the tap will be installed.

2. Peel off adhesive liner.

3. Assemble to face on rear (underside) of laundry tub.

4. Fit mixer tap as per mixer installation instructions.
